

P209: Mobile Unit, Mac Mini Setup

(displays on mobile unit monitor)

1. Press the **POWER ON** button on the monitor's remote to turn on monitor.

2. Turn Mac Mini on.

Power ON the Mac Mini using the black (hard to see!) power button along the rounded corner.

3. Set input to HDMI on monitor:

Turn on monitor with remote, if there is no signal, press **HDMI** on remote to set input.

4. Bluetooth Keyboard & Mouse

If keyboard and mouse are not responding, make sure each item is turned ON.

POWER SWITCH IS ON TOP RIGHT OF KEYBOARD |

****There is wireless keyboard/mouse inside the cabinet if you are having connection issues.**

5. If audio is needed, use volume controls on monitor remote to adjust levels.
