

Windows 7 Printing

1. In your application, select **File > Print**
2. Select **Port Campus Printer**
3. Click **Properties**
4. In the **One Click Presets** tab, make sure color settings is set to **Black and White**, and correct page size is set. If not, change these settings, Click Apply.

Does not use Papercut Print Management.
NSCAD Credentials are not needed to print.
For video on adding printer to your Windows laptop,
please visit multimedia.nscad.ns.ca/printing.html

5. In the **Detailed Settings** tab, make sure the free black and white printer code is entered: **00119**. If not, change settings, Click Apply.

6. Click **OK**
7. Click **Print**
